

OBJECTIVES

The school provides each student with the best education possible based on the fundamental human values. Each student is helped to develop a wholesome personality for which due emphasis is given in the curriculum for intellectual, physical, moral and spiritual growth. A sense of social awareness and responsibility is created in the growing child, making him / her self-reliant. The programme of education implemented in this school aims at forming fine human persons and worthy citizens for our nation, who are committed to the sublime values of our nation.
